

Funded by
the European Union

Erasmus Mundus Joint Master in Sustainable Biomass and Bioproducts Engineering (Sus2BioEng)

Integration Week

S1

FUNDAMENTALS

(30 ECTs)

(Chemistry, Biofuels, Bioresources, Biomaterials,
Characterization Techniques)

Wrocław University of Science
and Technology (Poland)

S2

ENGINEERING

(30 ECTs)

(Biochemical Operation Units and Reactors, Economy and
Management, Bioprocess Simulation, LCA, Biowaste)

University of Castilla- La
Mancha (Spain)

Summer School and Internships at Industrial Partners

S3

APPLICATIONS

(30 ECTs)

(Sustainable Products and Solutions, Biorefinery, Biomedical,
Safety and Quality Management, Circular Economy)

Technical University
Lappeenranta (Finland)

S4 Msc Thesis

30 ECTs (Choosing one place)

Joint Graduation Ceremony

Erasmus Mundus Scholarships
(master's fees and travel and accommodation costs)
Application Open: 1st April - 5th May
